### Professional Experience:

---

June 2018 — up to now, for 1 year 2 months

JSC “PIC “Electropribor” (WRTech LLC) – Ufa, electropribor-penza.ru, wrtech.ru.

QA – QA/QC/Tech Support

My responsibility is to test IPTV Portals and STB WR330/WR370. I do manual, functional, UAT, E2E, performance, hardware/firmware, black box/glass box testing, tech support in messengers with 40+ ISP companies.

I have done a comparative testing among 15 Android TV boxes and an acceptance testing with QA docs (4k, multicast, hls).

TechStack: Asana/Redmine; QA/QC/Documentation; Ubuntu; Git. Daily - ssh, logs, vim, kermit, bash, adb logcat.

November 2016 — November 2017, 1 year

JSC Nefteavtomatika – Ufa, nefteavtomatika.ru.

C++11 developer

I was a member of a six-person team. We developed Distributed Control System for manufacture needs mostly of Oil/Gas companies. I wrote modules for CIP and OPC UA protocols.

TechStack: C++11 – OPCUA and CIP; TDD – gmock/gtest; Scrum; Git; Ubuntu/Windows 7.

May 2016 — November 2016, 7 months

Polygon LLC (OOO NIISTIS) – Ufa, plgn.ru, stis.ru.

C/C++11 developer

I have done small tasks in C/C++ for a developed router and tests in Boost. The company manufactures routers and commutators. I was a member of an eleven-person team.

TechStack: C/C++11, Git, Debian, Yocto.

### Education:

---

June 2014 — July 2014, 2 months

ZAO «Unicloud», Business 365 (Datatech) – Ufa, datateh.ru.

QA Automation Intern

I wrote tests for SaaS CRM called Unicloud Business 365 with Selenium.

TechStack: Selenium IDE/RC, C#, XPath.

September 2011 — September 2015, 4 years

M. Akmullah Bashkir State Pedagogical University – Ufa, bspu.ru.

Institute of professional education and Information Technologies, Applied Information Technology (230700) in Psychology.
